

Filter cart 25-30 L/min.

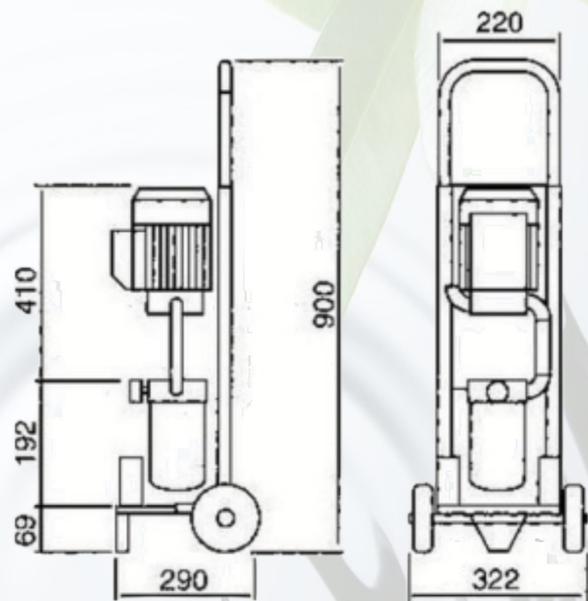

Mobile filter cart with 10 mic. Filter.

The hydraulic filtration system removes solid contamination and water from petroleum based fluids such as hydraulic fluid and gear and lube oils. The filter cart can be used to pre-filter fluids, transfer fluids or to clean existing systems.

In all cases, it makes remote, on-demand filtering for contaminant-free fluids fast and convenient.

CHARACTERISTICS FEATURES

Electric motor: 230 Volt, 0,75 KW.

Flow: 25-30 L/min. With suction and return hose.

Filter: 10 Mic.

An extra 3 mic. filter can be added to the filter cart.
